

Congratulations on the purchase of your Cutera Clinical Training

Scheduling your Clinical Training:

- Purchase your Clinical Training online at www.Cutera.com/education or contact Renee Lierly, RN at (415) 657-5731
- Your Clinical Trainer will contact you shortly after purchase to schedule your training.
 - Trainings usually occur within 2-3 weeks of purchase.
 - We will do our best to accommodate specific date requests, but please have alternate dates available.
- Clinical Trainings can only be completed in one session
- Please keep attendees limited to Medical Staff who will be using the Cutera System
 - Ensure that attendees will be in attendance for the entire training.
- All Clinical Training days included in this transaction must be completed within 90-DAYS of system purchase. If you need additional time, please contact Cutera.

Complete the following prior to your Clinical Training:

- Review Clinical CDs
 - Attendees should watch CDs prior to training to familiarize themselves with new system and ensure efficient use of training time
- Recruit Treatment Volunteers:
 - Cutera recommends using friends/family/staff, not paying patients.
 - Entire treatments can not be guaranteed, as the “treatments” are for training purposes only
 - The trainer will be talking over the patient and correcting technique.
 - The Clinical Trainer will not treat any patients or staff.
 - Note contraindications and pretreatment instructions prior to selecting volunteers.
- The following supplies must be available during the training:
 - Clear/no-color gel
 - Wood/cotton-tipped applicators
 - 4x4s
 - Disposable razors
 - Laser glasses
 - Medical grade acetone
 - Ice packs
 - Tongue blades
 - Gloves
 - PDI Sani-Cloth wipes
 - Camera for Before/After pictures
 - Consent Forms

For Pearl or Pearl Fractional Trainings also include:

- Topical Anesthetic
 - Pearl: Example (LMX 4% or 5%)
 - Pearl Fractional (Example: e.g. 7% lidocaine & 7% tetracaine)
- Aquaphor or similar product
- Laser Plume Masks 0.1µ (optional)
- Smoke Evacuator

Your Clinical Training will include:

- Review of the Cutera systems and handpieces
 - Appropriate treatment parameters, patient selection and proper technique
 - Consent forms, treatment guidelines and maintenance & safety information
- Hands-on practice with patient volunteers
 - Cutera Clinical Trainers will guide your staff on Cutera recommended techniques for each of the applications your office has purchased.
 - The Cutera Clinical Trainer can not do treatments on you, your patients or staff.

Clinical Training Tips:

- Keep attendees limited to Medical Staff who will be using the Cutera System to ensure a more streamlined training experience
- Have all training attendees present during the entire training
- Have copies of the Treatment Guidelines available for each trainee. Additional Treatment Guidelines can be printed from the Clinical & Training Section of the VIP Website.
- Have all consultations and consent forms completed prior to training

After your Clinical Training:

- Complete online evaluation to receive your Clinical Training Certificate. Certificates should arrive within one month of training.
 - www.cutera.com/trainingeval
- Log onto your VIP site to take advantage of Cutera's Clinical Resources:
 - Clinical & Training (Treatment Guidelines, Clinical Training Presentations, Consent/Consult Forms, etc)
 - Over 50 Archived Webinars for more education on Cutera's applications
 - Clinical Papers on all Cutera devices
 - Online Store to order Marketing Materials, Titan Refills, System Parts, etc
 - Downloadable Marketing Tools (Before/After Pictures, Customized Patient Brochures, etc)
- Periodically check the Events Tab for information on:
 - Customer Events & Clinical Forums
 - Online Webinars
 - Educational Seminars
 - Advanced & Refresher Trainings

Clinical Questions?

If you have clinical questions and would like to speak with a Nurse on staff, please call 888-4-CUTERA or email:

Renee Lierly, RN (rlierly@cutera.com)

Please note that the Clinical Nurses on staff can not dispense medical advice and will provide only guidance on treatment parameters

Training or Clinical Support Program Questions?

Michelle Enanoria, Clinical Support Manager
